COMBAT BOOTS TO COMMUNITY BONDS

— By Angel Morris

Brent L. Dorrough grew up in the small town of Hogansville, Georgia, surrounded by a living history. Rich in military service, his family provided a natural blueprint for his future. He spent hours talking with his father and uncles, learning the tangible and intangible benefits of a life in uniform.

It was a singular conversation with Brent's grandfather, Oliver Dorrough, a World War II Army veteran, that cemented his trajectory. Oliver recalled that during his own wartime training, his unit had been instructed by U.S. Marines. "He said the training he got not only was the best, most professional and lethal training he ever received, but it undoubtedly saved his life.

"That made it very easy for the Marine Corps recruiter who was assigned to my area. I joined on the day that I turned 17, which is the earliest that you can enlist in the military (and requires parental consent)."

Brent stepped onto the yellow footprints at Marine Corps Recruit Depot, Parris Island, South Carolina, in August 1992. Over a sprawling 30-year career, Master

Gunnery Sergeant Dorrough became one of the Marine Corps' most respected communications chiefs. His technical mastery and leadership were forged in almost every major global theater of the late 20th and early 21st centuries.

Brent served as a field radio operator and tactical air controller in the destabilized, dust-choked environments of Somalia in 1993. He managed communications amid mass human desperation in Guantanamo Bay and Haiti; navigated high-stakes, post-conflict tension of Bosnia and Kosovo; and kept systems running in sub-zero Arctic whiteouts in Norway.

While Brent's career thrived because his wife, Stephanie, and his children served as his anchors, deploying to combat zones revealed difficulties standard tactical training never accounted for. "Long stretches of time in multiple combat zones proved to be very difficult, but maybe for reasons that you wouldn't initially think of," Brent explained. "We know what we are going into (for the most part) when we go on combat deployments, but we don't get trained on how to deal with all that we miss when we are away (birthdays, holidays, huge life events, etc.), or how to ensure our families don't feel abandoned for a mission our government has deemed worthy of us potentially dying for."

Brent notes that combat lessons were endless, but

one stands out. "I'd have to say the strength of the team is the greatest weapon that we as a military, an individual unit, a fire-team, or any other size group, possesses. So, while the two core objectives of United States Marine Corps leadership, listed in order of priority, are mission accomplishment and troop welfare, you as a leader must balance getting the job done while genuinely caring for the people executing it. That is the foundation of every accomplishment I've achieved."

This philosophy was put to the ultimate test during the deployment he considers his highest professional milestone. "My greatest achievement was a collective accomplishment, where we brought our entire team home from Iraq, safe and sound," Brent said. "For a year, we lived in an Iraqi city and trained an Iraqi Infantry Battalion on how to conduct combat operations against terrorists and insurgents, and we conducted combat operations daily... Bringing everyone home alive from that type of situation is a tremendous accomplishment, and to see all that they've

accomplished since returning is so personally rewarding!”

As his historic career wound down at Marine Corps Base Hawaii in 2022, Brent began planning his family’s transition to civilian life. After extensive reconnaissance, the Dorroughs relocated to Ellis County. “I participated in a three-month fellowship program with a logistics company that had a location in DeSoto. I took the weekends to search local areas and find a good landing zone for me and my family.”

Transitioning out of uniform, Brent briefly built a training department for a national freight corporation, but corporate life lacked the civic purpose he required. He wanted an occupation that benefited the local veteran population and the community at large.

In January 2024, 378th District Judge William Wallace hired Brent to build a program from scratch: the Ellis County Veterans’ Treatment Court (VTC). The

VTC functions as a structured, treatment-focused alternative to the traditional criminal justice system, designed specifically for justice-involved veterans struggling with the invisible trauma of military service. “I was hired as the court coordinator and tasked with building a program, while running it, for the county. I did that for the first two years of the program’s existence, but was able to hire two new members of the team in October of 2025,” Brent shared.

Alongside Hailey Valley (also a veteran) as court coordinator and Deanna Duckworth as case manager, Brent now serves as program manager providing veterans with accountability, mentorship and a clear path toward restoration rather than a prison sentence. Today, if there is a veteran-specific event in Ellis County, Master Gunnery Sergeant Dorrough is usually there. “I am a member of the local Marine Corps League and participate in events with them all the time, as well as

the American Legion and VFW,” he said.

When Brent does find free time, he retreats into nature — enjoying hunting, fishing, traveling or operating heavy machinery to clear land and cut trees. Had he never joined the military, his path might have looked entirely different. “It would have been either something in professional sports operations, or heavy equipment/land clearing/excavation,” he said. “Wildly different interests!”

Today, young people frequently approach Brent for enlistment advice. “I tell them to do their homework and make sure that they know what they’re getting into. You aren’t just choosing a job or a skill; you’re choosing a life that includes a job/skill.

“This life isn’t for everyone; that’s why less than 1 percent of our population chooses to do it. It consumes you, and to be very successful at it, you have to fully invest in it and be willing to truly sacrifice everything for it.” **NOW**

MEDICARE'S ANNUAL ENROLLMENT PERIOD IS HERE — HERE'S WHAT EVERY BENEFICIARY SHOULD KNOW

October 15 – December 7 | Presented by Randy Bond, Local Licensed Medicare Agent

Every fall, Medicare gives you one window to make sure your coverage still fits your life — your health, your budget and your medications. Miss it, and you're locked into your current plan for another year, whether or not it's still working for you.

WHAT IS THE ANNUAL ENROLLMENT PERIOD?

The Annual Enrollment Period (AEP) runs from October 15 through December 7 each year. During this time, Medicare beneficiaries can review their current coverage and make changes for the upcoming year — including switching between Original Medicare and Medicare Advantage, changing Medicare Advantage plans or updating a Part D prescription drug plan. Any changes made during AEP take effect January 1.

WHY THIS WINDOW MATTERS

Plans change every year — sometimes significantly. Premiums, copays, drug formularies and provider networks can all shift from one year to the next, even if you don't change a thing yourself. A plan that covered your medications and your doctor this year may not do the same next year. AEP is the one guaranteed opportunity to check whether your plan still makes sense, without waiting for a special circumstance to qualify for a change.

Randy & Sandy Bond

Local Medicare Agent

WHY A LOCAL AGENT CAN MAKE THE DIFFERENCE

Medicare offers dozens of plan choices in Ellis County alone, and comparing them on your own can be confusing and time-consuming. A local, licensed agent can:

- Compare plans across multiple carriers side-by-side, based on your specific doctors, medications and budget
- Explain the differences in plain language — no jargon, no pressure
- Meet with you face-to-face, right here in your community
- Stay available after enrollment if questions or issues come up during the year

DON'T WAIT UNTIL DECEMBER 7.

Working with a local agent typically costs you nothing — agents are compensated by the insurance carriers, not by you.

We do not offer every plan available in your area. Currently we represent 7 organizations which offer 51 products in your area. Please contact Medicare.gov, 1-800-MEDICARE, or your local State Health Insurance Assistance Program (SHIP) to get information on all of your options.

We are not connected with or endorsed by the United States government or the federal Medicare program.

This is a solicitation for insurance. A licensed insurance agent may contact you. Enrollment in a plan depends on contract renewal.

**** DO NOT CALL unless your are 100% serious ****

After shadowing different careers in college, Dr. Cristina Allala discovered her calling in dentistry. Ten years later, she brings specialized expertise and a spa-like atmosphere to Cedar Hill through Serenity Advanced Dentistry, a solo, minority, woman-owned private practice.

Dr. Allala graduated from Baylor College of Dentistry in 2016 and completed her Bachelor of Science from The University of Texas at San Antonio in 2012. Since opening her practice, she has built a loyal following of patients who have followed her from her previous office, drawn by her gentle approach and commitment to patient care.

What sets her practice apart is her advanced certification in Level 2 moderate sedation — a qualification most dentists do not have. This certification requires at least 60 hours of specialized instruction and successfully administering sedation to at least 20 patients under supervision. For patients who experience dental anxiety, this option can transform their experience, making procedures like extractions comfortable and stress-free.

"Another thing that sets our practice apart is our skill with dental surgeries," Dr. Allala said. "Here are some of my favorite quotes from patients:

"Regarding implants: 'My implant surgery went smoothly. They explained everything, kept me relaxed, and I had very little discomfort afterward.'

"Regarding tooth extractions: 'I had oral surgery done and was extremely nervous, but the doctor and team made me feel comfortable the entire time. The procedure was painless, and recovery was easy.'

"Regarding tooth fixed dentures: 'My experience with fixed dentures was great. Dr. Allala planned everything digitally, the surgery went smoothly, and I had no complications. I can eat comfortably now, and they feel like my own natural teeth.'"

Serenity Advanced Dentistry offers most dental procedures under one roof, including sedation dentistry, dental crowns, dentures, emergency treatment, oral surgery, dental implants, root canals, teeth whitening, extractions, clear aligners, gum grafts and periodontal therapy. The practice emphasizes privacy and comfort. The office features private treatment rooms that allow honest conversations between doctor and patient without worry of being overheard. The modern facility incorporates the latest dental technology while maintaining a calming, spa-like environment.

"We are not a corporation," Dr. Allala said. Unlike larger corporate dental practices, Serenity Advanced Dentistry remains independent, allowing Dr. Allala to focus on building genuine relationships with patients. All assistants are bilingual, ensuring Spanish-speaking patients feel comfortable and fully understand their treatment options.

Dr. Allala lives in DeSoto, just 10 minutes away from her office, keeping her deeply connected to the community she serves. She gives back by supporting the Friends of Tri-City Animal Shelter through monthly contributions, a cause close to her heart as a devoted pet lover. For families seeking personalized dental care in a welcoming, professional environment, Serenity Advanced Dentistry offers an alternative to corporate dental chains.

Donna Crimmins-Bonnell

By Angel Morris

Donna Crimmins-Bonnell and her side business, Nana B’s Bake Shop, recently participated in The Great Cake Showdown, a competition hosted by the Ellis County Children’s Advocacy Center. “This is such a wonderful organization to support. I was so nervous, yet I am grateful that my dear friend, Camille Frances Jackson, talked me into this,” Donna shared.

In the competition, amateur and professional bakers showcased their creations to support child abuse victims and families. Donna received the Best Tasting Cake Award and was named Grand Champion. “I entered my Italian Cream Cake, as it’s my husband’s favorite cake,” Donna noted. “I was shocked, surprised and blessed to bring home two trophies and to see my cake auctioned for \$200!”

Madeline Reynolds

By Angel Morris

Midlothian artist Madeline Reynolds brought life to an everyday space with her new mural in Founders Row. A Sam Houston State University BFA graduate and longtime resident, Madeline views public art as a connective tool, and allowed local youth to paint sections of the mural to foster a shared sense of joy. “I got to interact with parts of the Midlothian community I had never even met before,” she shared.

Outside of curatorial work and advocacy gallery experience, Madeline practices Brazilian Jiu-Jitsu and has taught self-defense to high school girls. But art remains her biggest passion, she said. “I have used my art to engage, learn and connect with whatever community I find myself in.”

3. Gently loosen the skin over the turkey breast; rub half of the herb butter underneath.
4. Rub the remaining herb butter over the outside of the turkey.
5. Stuff the cavity with the lemon halves, quartered onion and rosemary sprigs.
6. Place the turkey on a roasting rack in a large roasting pan; pour the chicken broth into the bottom of the pan.
7. Roast for 3 to 3 1/2 hours, basting every 30 minutes, until a thermometer inserted in the thickest part of the thigh

reads 165 F.
